**Subject:** Questions for HSIA/EPA Meeting on CTC on August 17th  
**Attachments:** Questions on HSIA SOP for Personal Protection at CTC Manufacturing Sites\_8.3.21.docx

Hello Faye

As requested, here are some questions to help focus the discussion on August 17. I think you also mentioned that you have a presentation planned as well. We are hopeful to have time for both during the meeting.

If possible, EPA would also like to request written answers to these questions as well, and to note when the information (or answers) applies to PCE and TCE. As you have mentioned, there are many similarities in the processes, and we want to make sure we understand those similarities.

Thank you again Faye, and we look forward to further discussions with you and your members.

doug

Hi Doug,

We were thinking that it might be useful if the CTC team had some questions that they could share with us in advance so that we really address their needs.  
Possible to do?

Take care,  
Faye
